

Take control of your medication fills.

Choose how often and where you want to fill your prescriptions.

Having options can help make the things you do on a regular basis a little easier – such as refilling your prescriptions. With the Cigna 90 NowSM program, you decide how and where you fill your maintenance medications.

Choose how much you want to fill.

- **30-day supply.** You have the option of switching to a 90-day (or 3-month) supply at any time.
- **90-day (or 3-month) supply.**¹ You'll make fewer trips to the pharmacy for refills (four times a year instead of every month). And you're more likely to stay healthy – with a 90-day supply on hand, you're less likely to miss a dose.²

Health benefit plans vary, but in general to be eligible for coverage, a drug must be approved by the Food and Drug Administration (FDA), prescribed by a health care professional, purchased from a licensed pharmacy and medically necessary. If your plan provides coverage for certain prescription drugs with no cost-share, you may be required to use an in-network pharmacy to fill the prescription. If you use a pharmacy that does not participate in your plan's network, your prescription may not be covered, or reimbursement may be limited by your plan's copayment, coinsurance or deductible requirements. Refer to your plan documents for costs and complete details of your plan's prescription drug coverage.

Product availability may vary by location and plan type and is subject to change. All group health insurance policies and health benefit plans contain exclusions and limitations. For costs and details of coverage, review your plan documents or contact a Cigna Healthcare representative.
